Part One General Information and Responsibilities

Chapter 1 Introduction

1-1. Purpose

This regulation prescribes the authorization for wear, composition, and classification of uniforms, and occasions for wear for all personal (clothing bag issue), optional, and commonly worn organizational Army uniforms. This regulation also prescribes the awards, insignia, and accouterments authorized for wear on the uniform, and how these items will be worn. General information on the authorized material, design, and uniform quality control system is also provided.

1-2. References

Required and related publications are listed in appendix A.

1-3. Explanation of abbreviations and terms

Abbreviations and special terms used in this regulation are explained in the glossary.

1-4. General

a. Only uniforms, accessories, and insignia prescribed in this regulation or in Common Tables of Allowance (CTA), or as approved by Headquarters, Department of the Army (HQDA), will be worn by personnel in the U.S. Army. Unless specified in this regulation, wear policies for organizational clothing and equipment will be established by the commander issuing the clothing and equipment. No item governed by this regulation will be altered in any way that changes the basic design or the intended concept of fit as described in TM 10-227 and AR 700-84. All illustrations in this regulation should coincide with text. In cases of any inconsistencies between the text and the illustration, the written description will control.

b. Army Regulation 700-86 prescribes Department of the Army policies, responsibilities, and administrative procedures by which all clothing and individual equipment used by Army personnel are initiated, designed, developed, tested, approved, fielded, and modified.

1-5. How to recommend changes to Army uniforms

a. *Army Suggestion Program.* If the major Army command (MACOM) recommends approval of a suggestion, the recommendation will be forwarded to the Project Manager, Clothing and Individual Equipment (PM-CIE), U.S. Army Troop Support Command, ATTN: AMCPM-CIE, 5001 Eisenhower Avenue, Alexandria, VA 22333-0001, for consideration. Each suggestion forwarded to the Project Manager will

reflect the MACOM position; contain all appropriate supporting documentation; and be signed by the commander, deputy commander, chief of staff, or comparable level. Suggestions not recommended for adoption at any level will not be forwarded. Suggestions forwarded to the Project Manager without a MACOM position will be returned to the MACOM without action.

b. *General comments and suggestions.* Comments and suggestions regarding the policy, criteria, and administrative instructions concerning individual military decorations, the Good Conduct Medal, service medals and service ribbons, combat and special skill badges and tabs, and unit decorations will be processed in accordance with AR 672-5-1.

1-6. Classification of service and utility or field uniforms.

a. The class A service uniform for men consists of the Army green coat and trousers, a short or long sleeve AG 415 shirt, a black four-in-hand tie, and other authorized accessories.

b. The class B service uniform for men is the same as class A except the service coat is not worn. The black four-in-hand tie is required when wearing the long sleeve AG 415 shirt; the tie is optional with the short sleeve shirt.

c. The class A service uniform for women consists of the appropriate Army green coat or jacket and skirt or slacks of the Army green uniform, Army classic uniform, and the Army green pantsuit; a short or long sleeve AG 415 shirt; a black neck tab; and other authorized accessories. The Army green maternity uniform (slacks or skirt) is also classified as a class A service uniform when the tunic is worn. The neck tab will be worn with both the short and long sleeve maternity shirt when the tunic is worn.

d. The class B service uniform for women is the same as class A except neither the service coat or jacket nor the maternity tunic is worn. The black neck tab is required when wearing the long sleeve AG 415 shirt and the long sleeve maternity shirt. It is optional with the short sleeve version of both shirts. The AG 388 skirt and jacket and the dress and jacket uniforms are classified as class B service uniforms.

e. Class C uniforms are utility, field, and other organizational uniforms such as hospital duty and food service uniforms.

f. See appendix B for the Table of Prescribed Dress.

1-7. Personal appearance policies

a. *General.* The Army is a uniformed service where discipline is judged, in part, by the manner in which the individual wears the uniform as prescribed. Therefore, a neat and well-groomed appearance by soldiers is fundamental to the Army and contributes to building the pride and esprit essential to an effective military force. A vital ingredient of the Army's strength and military effectiveness is the pride and self-discipline that American soldiers bring to their Service. It

is the responsibility of commanders to ensure that military personnel under their command present a neat and soldierly appearance. It is the duty of all soldiers to take pride in their appearance at all times. Physical fitness and acceptable weight standards are also factors in personal appearance.

b. *Exceptions to appearance standards based on religious practices.* In accordance with AR 600-20, chapter 5, the following policies are effective 1 January 1986:

(1) Subject to temporary revocation due to health, safety, or mission requirements, soldiers may wear—

(a) Religious articles and jewelry that are not visible or apparent.

(b) Visible or apparent religious articles and jewelry under the same circumstances as authorized for nonreligious reasons.

(c) Religious skullcaps of plain design and standard color that do not exceed 6 inches in diameter while in living quarters, indoor dining facilities, and worship service locations.

(2) Soldiers may submit requests for other exceptions to uniform wear and appearance standards to accommodate religious practices. These requests may be made in accordance with AR 600-20, paragraphs 5-39 and 5-40. If wear of the type of article or the type of requested deviation has been requested from and approved by HQDA, commanders will approve bona fide requests of such exceptions, subject to temporary revocation due to health, safety, or military mission requirements. HQDA will evaluate each type of requested article or deviation in terms of military readiness, unit cohesion, morale, standards, health, safety, and discipline and will publish periodically a list of types of articles and deviations it has approved. Commanders may request that their units not be required to grant such exceptions due to special needs, interservice situations, or other problems the exceptions have caused in their units. Such requests should be forwarded through command channels to The Committee for Review of Accommodation of Religious Practices within the U.S. Army, HQDA(DAPE-HRL), WASH, DC 20310-0300.

(3) Chaplains may wear—

(a) Religious attire as described in this regulation, CTA 50-909, and AR 135-20 in the performance of religious worship services.

(b) Religious headgear indoors if required by the tenets of the religious denomination of the faith group the chaplain represents. Military headgear will be worn outdoors as specified by this regulation or by the commander.

(4) Religious-based exceptions to policy previously given soldiers under AR 600-20 prior to 1 January 1986 will continue in effect for them as long as they remain otherwise qualified for retention. However, soldiers previously granted authority to wear unshorn hair, unshorn beard, or permanent religious jewelry under AR 600-20 will not be assigned on a permanent change

of station or sent on temporary duty out of the continental United States due to health and safety considerations.

1-8. Hair and fingernail standards and grooming policies

a. Hair

(1) *General.* There are many hair styles that are acceptable in the Army. So long as the soldier's hair is kept in a neat, clean manner, the acceptability of the style will be judged solely by the criteria described below. Extreme or fad style haircuts are not authorized. If dyes, tints, or bleaches are used, colors used must be natural to human hair. Styles of hair and texture differ for the different ethnic groups, and these differences affect the length and bulk of hair as well as the style worn by each soldier. Haircuts, without reference to style, will conform to the following standards.

(2) *Male.*

(a) The hair on top of the head will be neatly groomed. The length and bulk of the hair will not be excessive or present a ragged, unkempt, or extreme appearance. Hair will present a tapered appearance and when combed will not fall over the ears or eyebrows or touch the collar except for the closely cut hair at the back of the neck. The blockcut fullness in the back is permitted in moderate degree as long as the tapered look is maintained. In all cases the bulk or length of hair will not interfere with the normal wear of headgear or protective masks.

(b) Sideburns will be neatly trimmed. The base will not be flared and will be a clean-shaven, horizontal line. Sideburns will not extend below the lowest part of the exterior ear opening.

(c) The face will be clean-shaven, except mustaches are permitted. If a mustache is worn, it will be kept neatly trimmed, tapered, and tidy and will not present a chopped-off appearance. No portion of the mustache will cover the upper lip line or extend sideways beyond a vertical line drawn upward from the corner of the mouth. See figure 1-1. Handlebar mustaches, goatees, and beards are not authorized. If beard growth is prescribed by appropriate medical authority, the length required for medical treatment will also be specified. For example, "A neatly trimmed beard is authorized. The length will not exceed 1/4-inch." (See TB MED 287.)

(d) The wearing of a wig or hairpiece by male personnel in uniform or on duty is prohibited except to cover natural baldness or physical disfigurement caused by accident or medical procedure. When worn, it will conform to the standard haircut criteria as stated.

(e) Army National Guard (ARNG) and U.S. Army Reserve (USAR) personnel may wear a wig or hairpiece during unit training assemblies and when serving on active duty for training for 30 days or less, or on full-time training duty for 30 days or less, if it conforms to the standard haircut criteria stated above and does not interfere with performance of duty. When ordered for a

period of more than 30 days to active duty, active duty for training, or full time training duty, the wearing of a wig or hairpiece by male members of the ARNG and the USAR in uniform or on duty is prohibited except as provided in (4) above.

(3) *Female.* Hair will be neatly groomed. The length and bulk of the hair will not be excessive or present a ragged, unkempt, or extreme appearance. Hair will not fall over the eyebrows or extend below the bottom edge of the collar. Hair styles will not interfere with proper wearing of military headgear or protective masks.

(a) A hairnet will not be worn unless it is required for health or safety reasons. If the commander requires its wear, it will be provided at no cost to the soldier.

(b) Wigs may be worn as long as the hairpiece is of a natural hair color and the style and length conform to appearance standards.

(c) Hair holding ornaments (barrettes, pins, clips), if used, must be transparent or similar in color to the hair, and will be inconspicuously placed. Beads or similar ornamental items are not authorized.

(d) Female soldiers are authorized to wear cosmetics applied conservatively and in good taste. Exaggerated or faddish cosmetic styles are inappropriate with the uniform and will not be worn. Lipstick and nail polish may be worn with all uniforms as long as the color is conservative and complements the uniform. Extreme shades such as purple, gold, blue, and white will not be worn.

b. *Fingernails.* All personnel will keep fingernails clean and neatly trimmed so as not to interfere with performance of duty, detract from the military image, or present a safety hazard.

1-9. Uniform appearance and fit.

a. *Appearance.* All personnel will maintain a high standard of dress and appearance. Uniforms will be properly fitted, clean, serviceable, and pressed as necessary. Personnel must project a military image that leaves no doubt that they live by a common military standard and are responsible to military order and discipline. Personnel will ensure that when articles are carried in pockets, i.e., wallets, checkbooks, combs, and keys, these articles do not protrude from the pocket or present a bulky appearance. Items such as keys and key chains will not be attached to belt loops or belts unless required for duties being performed, i.e., charge of quarters or armorer. While in uniform, personnel will not place their hands in their pockets except momentarily to retrieve carried objects. Uniforms will be kept buttoned, zipped, and snapped; metallic devices such as metal insignia, belt buckles, and belt tips will be kept in proper luster and will be free of scratches and corrosion; medals and ribbons will be clean and not frayed; and shoes and boots will be cleaned and shined. Lapels and sleeves of coats and jackets will be roll pressed (without creasing). Women's summer warp knit (AG-388) dress and

jacket uniform and all skirts will not be creased. Trousers, slacks, and sleeves of shirts and blouses will be creased. Although some uniform items are made of wash and wear materials or treated with a permanent press finish, some pressing may be required to maintain a neat military appearance. However, before pressing, soldiers should read and comply with care instruction labels attached to uniform items.

b. *Fit.* Fitting instructions and alterations of uniforms will be in accordance with AR 700-84 and Technical Manual (TM) 10-227. The following is a summary of general fitting guidelines:

(1) *Black all-weather coat.*

(a) *Male personnel.* The length of the sleeve will be 1/2 inch longer than the service coat when worn under the black all-weather coat. The bottom of the black all-weather coat will reach to a point of 1 1/2 inches below the midpoint of the knee.

(b) *Female personnel.* The length of the sleeves will be the same as above. The bottom of the coat will reach a point 1 inch below the skirt hem but not less than 1 1/2 inches below the crease in the back of the knee.

(2) *Uniform coats and jackets (male and female).* The sleeve length will be 1 inch below the bottom of the wristbone.

(3) *Trousers and slacks.*

(a) Trousers are to be fitted and worn with the lower edge of the waistband at the top of the hipbone, plus or minus 1/2 inch. The front crease of the trousers will reach the top of the instep and be cut on a diagonal line to reach a point approximately midway between the top of the heel and the top of the standard shoe in the back. The trousers may have a slight break in the front.

(b) Slacks will be fitted and worn so that the center of the waistband is at the natural waistline. The front crease of the slacks will reach the top of the instep and be cut on a diagonal line to reach a point approximately midway between the top of the heel and the top of the standard shoe in the back. The slacks may have a slight break in the front.

(4) *Knee-length skirts and dresses.* Skirt and dress lengths will not be more than 1 inch above or 2 inches below the crease in the back of the knee.

(5) *Long sleeve shirts.* The sleeve length will extend to the center of the wristbone.

c. *Other.* Appropriate undergarments will be worn with all uniforms.

1-10. When wearing the Army uniform is required or prohibited

a. The Army uniform will be worn by all personnel when on duty unless an exception for wear of civilian clothes for mission reasons is granted. Wearing of civilian clothing by enlisted personnel on duty is subject to the provisions of AR 700-84. Exceptions may be granted by—

(1) Commanders of major commands.

(2) Assistant Secretaries, Office of the Secretary of Defense, or the Secretary of the Army.

(3) Heads of Department of Defense agencies.

(4) Heads of Department of the Army Staff agencies.

b. A class A or B service uniform will be worn on military airlift and DOD contract flights except when civilian clothing is mandatory at ports of embarkation or debarkation. (See United States Air Force Foreign Clearance Guide (FCG) for information concerning mandatory wear of civilian clothing in foreign countries. This information will be entered on the individual's travel orders authorizing the wear of civilian clothing.) Optional uniform items as prescribed in this regulation may be worn with the class A and B service uniforms. Commanders may authorize the wear of civilian clothing when traveling by commercial or private transportation.

c. All service uniform combinations are authorized for year-round wear. However, appropriate discretion should be used based on weather conditions and duties. The wearing of combinations of uniform items not prescribed in this regulation or other authorization documents approved by HQDA is prohibited.

d. The wearing of a combination of civilian and military clothing is prohibited unless prescribed in this regulation or other authorization documents approved by HQDA. Commercial rucksacks may be carried but not worn while in uniform except while riding a bicycle or motorcycle.

e. Soldiers may continue to wear uniform items changed in design or material as long as the item remains in serviceable condition unless specifically prohibited. See appendix C for a list of possession and wear-out dates for uniform items.

f. Appropriate attire for individuals participating in civilian outdoor activities such as volksmarches, orienteering, or similar activities is civilian clothing. The service uniform may be worn by spectators if desired. Utility or field uniforms are not authorized for wear by individuals participating in or observing these events. However, commanders of units participating as units or providing support personnel (e.g., medical and traffic control) may prescribe appropriate uniforms to include utility or organizational uniforms, if warranted by the occasion, weather conditions, or activity.

g. Soldiers may wear experimental uniform items while actively engaged in an experimental uniform test program approved by HQ, U.S. Army Training and Doctrine Command (TRADOC), HQ U.S. Army Materiel Command (AMC), or the Army Clothing and Equipment Board, HQDA. Experimental items may not be worn after completion of the test unless approval is obtained from this headquarters.

h. The wear of Army uniforms is prohibited—

Garrison caps of polyester wool blend (AG 344) or all polyester (AG 434) may be worn interchangeably with service uniforms of either shade.

b. When gold lace (sleeve or trouser ornamentation) or gold bullion is prescribed for wear with uniforms, gold color nylon, rayon, or synthetic metallic gold may be substituted. These items will be sent to the Uniform Quality Control Office, U.S. Army Natick Research and Development Center, Natick, MA 01760-5019, for evaluation. The Uniform Quality Control Officer will issue appropriate quality control certificates if the samples are approved.

3-5. General guidelines

a. These uniforms are designed to be loose fitting; alterations to make the uniforms form fitting are not authorized. Only alterations authorized by AR 700-84 will be made. A tight fit reduces air flow needed for ventilation and cooling. The coat will be worn outside the trousers and the

trousers will be worn with a belt. The original design of the temperate coat has been modified to reduce the width of the collar, add waist take-up tabs, and change the breast bellow pockets to flare to the side front. Both styles of coats are authorized for wear. The waist take-up tabs will remain buttoned at all times. See figures 3-1 through 3-4. The trousers will be worn bloused using the draw cords or blousing rubbers if the trousers are not tucked into the boots. These uniforms may be pressed but will not be starched. The commander may require these uniforms to be pressed for those special occasions when appearance should be especially sharp such as parades, reviews, inspections, or other ceremonial occasions. When sleeves are worn rolled up, the camouflage pattern will remain exposed. The sleeves will be rolled neatly above the elbow but no more than 3 inches above the elbow. Exceptions to the wear of the shirt and trousers may be authorized by the commander under conditions deemed appropriate in the interest of health, comfort, and efficiency due to climatic conditions. The hot weather and temperate uniforms will not be worn intermixed.

b. The BDU cap is the basic headgear for these uniforms. The BDU cap will be worn straight on the head so that the cap band creates a straight line around the head parallel to the ground. The cap will be worn so that no hair will be visible on the forehead. The earflaps may be worn down at the discretion of the individual during cold weather except when in formation, when the commander may prescribe wear policy. The cap will not be blocked. Personnel authorized to wear organizational berets or other organizational headgear may wear such headgear in lieu of the BDU cap. Commissioned and warrant officers will wear non-subdued insignia of grade on the BDU cap and organizational berets in a garrison environment. Subdued insignia of grade will be worn on all headgear in a field environment. Chaplains will wear insignia of branch in the same manner as described above. Enlisted personnel will wear subdued insignia of grade on utility and organizational headgear.

c. Commanders may prescribe a specific uniform for formations or ceremonial occasions, such as parades when uniformity in appearance is required. When a specific uniform is not prescribed, soldiers may wear either the hot weather, temperate BDU, or other authorized utility uniforms. The woodland camouflage and OG 107 cold weather coats may be worn with all utility uniforms. (Note. The OG 107 cold weather coat is not authorized for wear after 30 Sep 86.) When uniformity in appearance is required for formations or ceremonial occasions, the commander may require the camouflage cold weather coat to be worn. Commanders cannot require the OG 107 cold weather coat to be worn. The black all weather coat may be worn as a raincoat with these uniforms only in a garrison environment when organizational raingear has

not been issued. The olive green scarf and the black leather shell gloves may be worn with these uniforms when the cold weather coat or other authorized outer garments are worn. Coats will be worn buttoned and

zipped. The shirt collar will be worn inside the cold weather coat and other outer garments. Female personnel may carry handbags with these uniforms only while in a garrison environment.

The short sleeve shirt has a convertible collar and may be worn with or without a black neck tab when this shirt is worn as an outer garment or with authorized accessories (black windbreaker or black pullover sweater). When the short sleeve shirt is worn with either the black cardigan or black pullover sweater, without a neck tab, the shirt collar will be worn outside the sweater. The long sleeve shirt will always be worn with a black neck tab. Optional purchase and wear of the AG 428 polyester and wool long and short sleeve shirts is authorized. The AG 415 and AG 428 shirts will not be starched or bleached.

16-10. Headgear

a. *Beret, Army black.*

(1) *Design.* The beret will be made from an approved specification or pattern. It is a hand blocked outer shell with a fold side and an eyelet in the center.

(2) *Wear.* The Army black beret is being replaced by the Army green garrison cap. The phase-out date for the black beret and the mandatory possession date for the green garrison cap have not been established. The Army green garrison cap may be worn in lieu of the black beret by enlisted female personnel but cannot be required until a mandatory possession date is established. The black beret (or green service hat) is required for wear by female officer personnel when wearing the class A green uniform except when in a travel status or assigned to an air assault unit or unit authorized to wear an organizational beret.

(3) *Proper wear position.* The black beret will be worn with the headgear insignia (same insignia as worn on the service hat) centered on the forehead. The beret will not be worn forward of the forehead hairline. The beret will be worn so as to retain its original blocked contour and not be crushed, flattened, dented or otherwise reshaped.

b. *Garrison cap, Army green.*

(1) *Design.* The cap will be made from an approved specification or pattern.

(2) *Ornamental braid.* Garrison cap braid refers to the piping used for additional identification purposes that is secured to the tip edge of the curtain of the garrison cap. The type of braid on the garrison cap is as follows:

(a) *General officers.* The cap will have a cord edge braid of gold bullion or synthetic metallic gold yarn.

(b) *Other commissioned officers.* The cap will have a cord edge braid of gold bullion or synthetic metallic gold yarn with black rayon or black polyester intertwined.

(c) *Warrant officers.* The cap will have a cord edge braid of silver bullion or synthetic metallic silver yarn or silver rayon with black rayon or black polyester intertwined.

(d) *Enlisted personnel.* The cap will have a cord edge braid of the same material as the cap, Army green shade 344.

(3) *Wear.* The Army green garrison cap will replace the black beret as the mandatory headgear for wear by enlisted female personnel with the class A and B Army green uniforms and may be worn in lieu of the black beret. Since no possession date has been established for the female garrison cap, it cannot be required for wear. The garrison cap is authorized for optional wear by officer personnel with the class B Army green uniform or when in a travel status.

(4) *Proper wear position.* The cap will be worn with the front vertical crease of the cap centered on the forehead, with the front lower portion of the cap approximately 1 inch above the eyebrows (approximately the width of the first two fingers). The top of the cap will be opened to cover the crown of the head. The bottom of the rear vertical crease will fit snugly to the back of the head. Hair will not be visible on the forehead below the front bottom edge of the cap.

c. Hat, service, green.

(1) *Design.* The hat will be made from an approved specification or pattern. The hat has an oval shaped crown and a detachable hatband for insignia. The detachable hatband has three rows of stitching of matching thread at the top of the band and ornamentation as follows:

(a) *General and field grade officers.* The hat will have two arcs of laurel leaves in groups of two, embroidered in gold bullion or synthetic metallic gold colored braid, or in gold color nylon or rayon.

(b) *Company grade officers and warrant officers.* The hat will have a band of ½ inch two-velum gold, gold colored synthetic metallic, gold color nylon, or gold color rayon braid placed on the bottom edge of the hatband.

(c) *Enlisted personnel.* The hat will not have any ornamentation on the hatband.

(2) *Hat insignia.* Insignia will be worn on the service hat, centered on and secured through the hatband.

(3) *Wear.* The Army green service hat may be worn by all female Army personnel with the class A and B Army green uniforms. It is mandatory for wear by officer personnel with the class A Army green uniform (if not wearing the black beret) except when in a travel status or assigned to a unit authorized to wear organizational berets or assigned to an air assault unit. The service hat is an optional item for enlisted personnel and may be worn with the Army green dress uniform and with the class A

and B green uniforms except when in formation unless authorized by the commander.

(4) *Proper wear position.* The service hat will be worn straight on the head so that the hatband creates a straight line around the head parallel to the floor. Hair will not be visible on the forehead below the front brim of the hat. The brim of the hat should rest ½ to 1 inch above the eyebrows.

When a specific service uniform is not prescribed for formations or other occasions when uniformity in appearance is required, soldiers may wear the class A or any of the variations of the class B uniform with the accessories authorized for these uniforms. Commanders will not require the wear of optional items such as windbreakers or sweaters unless such items are provided to the soldier without cost. Soldiers may purchase and wear the Army green classic service uniform in any of the authorized fabrics listed in paragraph 16-5. However,

individuals who purchase uniforms or uniform items from commercial sources are responsible for ensuring that the items conform to military specifications or are manufactured in accordance with the procedures prescribed by the Uniform Quality

Control System. (See chap 2 for details.) Only alterations authorized by AR 700-84 and TM 10-227 are authorized. General fitting instructions for these uniforms are provided in Chapter 1 of this regulation. These uniforms may be worn with either the AG

(1) Service is computed between dates of departure from and arrival at a port in the United States or the boundary of CONUS. The day of departure and day of return are included. The expression "each period of 6 months' service" is interpreted to authorize wearing an overseas service bar for overseas service of various lengths performed either continuously or at intervals when the total of the service equals or exceeds 6 months. Thus, an individual who serves 4 months and 10 days outside CONUS and returns there and subsequently departs from the United States to the same or another theatre or country and serves an additional 1 month and 20 days is entitled to one bar. All active duty or service outside CONUS (permanent, temporary, detached, etc.) will be included in computing length of service, provided that the official duty of the individual required his or her presence outside CONUS.

(2) Military personnel serving on transport vessels and on aircraft become eligible to wear the bar when their total service outside CONUS equals or exceeds 6 months.

(3) Service on the Great Lakes and in any harbor, bay, or other enclosed arm of the sea along the coast and that part of the sea which is within 3 miles of the continental limits of the United States will not be included in computing length of service required.

(4) Periods during which military personnel are absent without leave or in desertion will not be included in computing length of service required.

(5) Periods during which military personnel are in the United States on temporary duty, detached service, or leave (even though the individual is assigned overseas) will not be included in computing length of service required.

(6) Periods during which military personnel are in confinement, which result in time lost as described in the Uniform Code of Military Justice, Section 6, will not be included in computing length of service required.

(b) *Female personnel.* On the AG 388 dress and jackets, on the coats and jackets of the Army green pantsuit, Army green, green classic, white, and blue uniforms and maternity tunic.

(2) *How worn.* Ribbons will be worn in the order of precedence from the wearer's right to left in one or more rows either with no space between rows or a 1/8-inch space between rows. No more than four ribbons will be worn in any one row. A second row will not be started unless the individual is authorized to wear four or more ribbons. The determination of whether three or four ribbons are worn in each row will be based on the size of the coat and the position of the lapel. The first and second rows will contain the same number of ribbons (three or four) before starting a third row. The third and succeeding rows will contain the same or fewer ribbons than the first two rows. The top row will be centered on the row beneath or aligned to the left, whichever presents the best appearance. See figure 32-1.

a. *Where worn.* Full-size decorations and service medals may only be worn on the Army blue and white uniforms, and the Army green dress uniform by enlisted personnel when worn for social functions.

in the order of precedence from the wearer's right to left, in one or more rows, with 1/8 inch space between rows. Second and subsequent rows will not contain more medals than the row below. Service and training ribbons will not be worn when full size decorations and service medals are worn. U.S. and foreign unit award emblems may be worn as prescribed when wearing full size medals. The medals will be worn as follows:

(1) *Male personnel.* The medals will be worn immediately above the left breast pocket in as many rows as necessary. Full size decorations or medals will not overlap within a row. The number of medals worn in each row is dependent on the size of the coat. When full size medals are worn, up to three full size or miniature combat and special skill badges from groups 1 to 5 (see para 32-17a) may be worn above the medals in order of group precedence. The Drivers and Mechanic Badge will not be worn with full size medals. Special skill and marksmanship badges will not be worn on the pocket flap below the medals. See figure 32-4.

The bottom row of the medal pendants will be positioned parallel to the bottom of the nameplate. The placement of the medals and nameplate may be adjusted to conform to individual figure differences. The number of medals worn in each row is dependent on the size of the coat. When full size medals are worn, up to three full size or miniature combat and special skill badges from groups 1 to 5 (see para 32-17a) may be worn above the medals in order of group precedence. The Drivers and Mechanic Badge will not be worn with full size medals. Special skill and marksmanship badges will not be worn below the medals. See figure 32-5.

Service and training ribbons and US and foreign unit award emblems will not be worn when miniature medals are worn. Only the dress miniature size of combat and special skill badges will be worn with miniature medals.

Miniature decorations and service medals will be worn in the order of precedence from the wearer's right to left with the medal of highest precedence worn on the top row if more than one row is required. Miniature medals will be worn side by side when four or less are worn in the same row. They may be overlapped, so that each medal partially covers the medal at its left with the right medal showing in full when five, six, or seven medals are worn in the same row. The overlap will not exceed 50 percent and will be equal for all medals. When more than one row of miniature medals are worn, the second and subsequent rows will be positioned so that the medal pendants on the row below are visible. The top row of miniature medals will be centered over the row immediately below. Miniature medals will be worn as follows:

(1) Male personnel. Miniature medals will be worn centered on the left lapel, approximately $\frac{1}{2}$ inch below the notch of the mess and evening mess uniforms and will not extend beyond the edge of the lapel. Placement of medals may be adjusted to accommodate wear of dress miniature badges. See figure 32-7. Miniature medals will only be worn on the Army blue and white uniforms when these uniforms are worn as formal dress uniforms (bow tie). Miniature medals will be worn above the left breast pocket in the same position as full size medals. See figure 32-4. See paragraph 32-17b(2)(a) for wear of dress miniature badges with miniature medals on the blue and white dress uniforms.

(2) Female personnel. Miniature medals will be worn centered on the left side of the uniform coat or jacket (not on the lapel) with the bottom line positioned parallel to the top edge of the top button of the Army white and Army blue uniform coats and in a similar position on the mess and evening mess uniforms. See figure 32-8. The placement of the medals may be adjusted to conform to individual figure differences. Miniature medals may only be worn on the Army blue and white uniforms when these uniforms are worn as formal dress uniforms. See paragraph 32-17b(2)(a) for wear of dress miniature badges with miniature medals on the blue and white dress uniforms. See figure 32-4.

a. An individual who has been awarded more than one decoration that includes a broad ribbon, sash, or star, will only wear one broad ribbon or sash and no more than four stars at one time. The broad ribbon with badge and star of the Presidential Medal of Freedom will take precedence over all other broad ribbons, sashes or stars. 32-11. Wearing U.S. and foreign unit awards

a. *Description.* Unit award emblems with frames will be worn with the laurel leaves of the frame pointing upward. Only one emblem representing the same unit award will be worn. Emblems may be worn as prescribed when wearing full size medals or service ribbons, but will not be worn with miniature medals. Fourrageres and Lanyards, when authorized for permanent or temporary wear according to AR 672-5-1, may be worn on the left shoulder with the cord passing under the sleeve attached to the shoulder loop button on the coat of the green and white uniforms and on the enlisted blue uniforms. Officer personnel authorized to wear a fourragere or lanyard will attach a 20 ligne button to the left shoulder seam $\frac{1}{2}$ inch outside the collar edge on the Army blue uniform coat to attach these awards. Only a fourragere, lanyard, aiguillette, or cord will be worn on each shoulder.

d. *Foreign unit awards.* If a foreign unit award is worn, at least one other U.S. decoration, service medal, or unit award must also be worn. Foreign unit awards are worn after U.S. unit awards by date of receipt. See AR 672-5-1 for criteria for acceptance of foreign unit awards. Foreign unit awards will be worn as follows:

32-12. Wearing of appurtenances

Appurtenances are devices affixed to service or suspension ribbons or worn in lieu of medals or ribbons. They are worn to denote an additional award, participation in a specific event, or other distinguishing characteristic of an award. The following appurtenances are authorized for wear on decorations, medals, ribbons and other awards, when authorized by appropriate authority. See AR 672-5-1 for additional information.

a. *Oak leaf clusters.* A bronze twig of four oak leaves with three acorns on each stem, is worn to denote award of second and succeeding awards of decorations (other than the Air Medal), the Army Reserve Components Achievement Medal and unit awards. Except for the Multinational Force and Observers Medal (MFO), the ribbon denotes the first award, and numerals starting with the numeral 1 denote the number of additional awards. On the MFO medal, the second award begins with the numeral 2. The numeral worn on the NCO Professional Development Ribbon will denote the highest level of NCO development as follows: 1 = Primary Course; 2 = Basic Course; 3 = Advanced Course; 4 = First Sergeant Course; 5 = U.S. Army Sergeants Major Academy completion or equivalent level training approved by HQDA. The clasp and discs are in bronze for the first winter, gold for the second winter, and silver for three or more winters.

f. *Service stars.* The service star is a bronze or silver, five-pointed star 3/16 inch in diameter. A silver star is worn in lieu of five bronze service stars and is worn to the wearer's right of a bronze service star and left of an arrowhead. Criteria for wear of service stars on service and campaign medals is provided in AR 672-5-1. Service stars are worn to denote an additional award and are centered on the ribbon and suspension ribbon with one point upward. Additional service stars will be worn side by side, each with one point upward. Three sixteenths of an inch service stars joined together in a series of 2, 3, and 4 stars are authorized for optional purchase and wear on ribbons. The bronze service star is also affixed to the parachutist badge to denote participation in a combat parachute jump.

g. *Arrowhead.* The arrowhead is a bronze replica of an Indian arrowhead ¼ inch high. It denotes participation in a combat parachute jump, combat glider landing, or amphibious assault landing, while assigned or attached as a member of an organized force carrying out an assigned tactical mission. It is worn on the suspension ribbon and service ribbon of the Asiatic-Pacific Campaign, European-African-Middle Eastern Campaign, World War II Campaign Medals, Korean Service and Vietnam Service Medals, and Armed Forces Expeditionary Medal. The arrowhead is worn with the point facing upward and is worn to the wearer's right of all service stars. Only one arrowhead will be worn on any ribbon.

32-13. Badges authorized for wear on Army uniforms

A badge is awarded to an individual for identification purposes or for attaining a special skill or proficiency. Criteria for award of Army badges is contained in AR

672-5-1. Most combat and special skill badges are available in full, miniature, and dress miniature sizes. The following badges are authorized for wear on the Army uniform:

a. Military badges awarded by the Department of Army, USAF, and Navy and the Director of Civilian Marksmanship. See h below for additional information.

b. Badges awarded by the Regular Army and Navy Union and by the Army and Navy Union of the United States.

c. Marksmanship badges pertaining to national matches and approved by HQDA.

d. Badges of civic and quasi-military societies of the United States and international organizations of a military nature. The badges are worn only while the wearer is actually attending meetings or functions of such organizations. These badges will not be worn to and from such meetings.

e. Badges awarded by friendly foreign nations in recognition of military activities and as authorized by AR 672-5-1.

f. Tabs indicating marksmanship or special skill. The President's Hundred, Ranger, and Special Forces Tabs are the only tabs authorized for wear.

g. Locally authorized subdued badges. Authority for MACOM commanders to approve locally authorized badges was rescinded on 1 October 1985. Major commanders were authorized to approve for local adoption and temporary wear, special skill subdued cloth badges according to AR 672-5-1. These cloth badges may be worn on the utility uniforms only and will not interfere with wear of insignia approved by HQDA. Local badges currently authorized, will be furnished at no cost to the soldier and may be worn at the wearer's option until 30 September 86. The approving major command will provide guidance on wear policy.

h. Authority must be obtained from HQDA in accordance with AR 672-5-1 before wearing badges awarded by other U.S. Services and the Director of Civilian Marksmanship on the Army uniform. Military skill badges awarded by other U.S. Services, which are similar to U.S. Army skill badges may be worn on the Army uniform in the same manner as U.S. Army skill badges. For example, aviation badges awarded by the USAF may be worn as a group 3 badge (aircraft crewman and aviator badges) if no Army group 3 badge is authorized. Skill badges awarded by other U.S. Services, which are not similar to Army skill badges, may be worn as group 4 badges. Other services badges that indicate career field such as the United States Air Force (USAF) medical insignia, and badges used to identify the duty or function of the wearer such as the USAF Fire Protection, USAF Air Training Command Instructor, USAF Security Police are not authorized for wear on the Army uniform. Badges awarded by other U.S. Services, which because of size or configuration cannot be worn as a group 4 badge, will not be worn. Subdued embroidered or metal skill badges

authorized for wear by another U.S. Service may be worn on utility uniforms in the same manner as prescribed for Army badges.

Each marksmanship badge, other than the badges that have attaching devices on the top (see above), will be centered between the button and the left or right side of the pocket. The bottom of the badges (not the clasp holder or clasps) will be adjacent to the bottom of the pocket flap. See figure 32-25.

location if ribbons are not worn on the service or dress uniform coats or jackets, the maternity tunic, and the AG 388 dress. Placement of badges may be adjusted to conform to individual figure differences. Marksmanship badges and special skill badges authorized for wear below ribbons on the above uniforms will be worn as prescribed below. See paragraph 32-17 for description and wear policy for special skill badges. When airborne background trimming is worn beneath the parachutist or air assault badge, the space between the bottom of the ribbon bar and the top of the background trimming will be $\frac{1}{4}$ inch. The badge will be centered on the background trimming.

1. *One marksmanship or one special skill badge.* The badges will be worn centered with the upper portion of the badge $\frac{1}{4}$ inch below the ribbon bar. See figure 32-27.

2. *Two special skill or two marksmanship badges or one special skill and one marksmanship badge.* These badges will be worn with the upper portion of the badges $\frac{1}{4}$ inch below the ribbon bar with at least 1 inch between badges. Special skill badges will be worn to the wearer's right of marksmanship badges. See figures 32-28 and 32-29.

3. *Two special skill and one marksmanship or one special skill and two marksmanship or three marksmanship badges.* Will be worn with the upper portion of the badges $\frac{1}{4}$ inch below the ribbon bar and spaced an equal distance apart. See figure 32-30.

c. *President's Hundred Tab (rifle or pistol.)* The President's Hundred Tab is a full color tab of yellow cloth $4\frac{1}{4}$ inches long and $\frac{5}{8}$ inch high, with the words "President's Hundred" centered in $\frac{1}{4}$ inch high green letters (fig 32-31). The subdued tab is identical except the background is olive drab, and "President's Hundred" is in black. The full color President's Hundred Tab will be worn $\frac{1}{2}$ inch below the shoulder seam on the left sleeve of the male and female Army green coat and female pantsuit jacket (fig 32-32). The subdued President's Hundred Tab will be worn $\frac{1}{2}$ inch below the left shoulder seam of the BDU field jacket and the temperate and hot weather BDU coats (shirts); the OG 107 field jacket, OG 107/507 fatigue shirts, and the OG 107 hot weather jungle fatigues (optional purchase version). The President's Hundred bronze metallic brassard is not authorized for wear on the Army uniform. Only one special skill (Ranger or Special Forces) or marksmanship tab (President's Hundred) may be worn regardless of the number authorized.

32-17. Combat and special skill badges and tabs

a. Listed below in order of group precedence are the combat and special skill badges authorized for wear on the Army uniform.

(1) Group 1. Combat Infantryman badges (three awards). See figure 32-33; Expert Infantryman badge. See figure 32-34.

(2) Group 2. Combat Medical badges (three awards). See figure 32-35; Expert Field Medical badge. See figure 32-36.

(3) Group 3. Army Astronaut badge (three degrees). See figure 32-37; Army Aviator badges (three degrees). See figure 32-38; Flight Surgeon badges (three degrees). See figure 32-39; Aircraft Crewman badges (three degrees). See figure 32-40.

(4) Group 4. Glider badge. See figure 32-41; Parachutist badges (three degrees). See figure 32-42; Combat Parachutist badges. Four degrees are shown at figure 32-43; Pathfinder badge. See figure 32-44; Air Assault. See figure 32-45.

Note: The Ranger metal tab replica and the Special Forces metal tab replica group 4, badges are only authorized for wear on the coat of the blue and white dress uniforms and the jacket of the mess and evening mess uniforms.

(5) Group 5. Diver badges (five badges). See figure 32-46; Driver and Mechanic badge (six clasps). See figure 32-47; Explosive Ordnance Disposal badges (three degrees). See figure 32-48; Nuclear Reactor Operator badges (four badges). See figure 32-49.

b. Wear of combat and special skill badges. A total of four combat and special skill badges may be worn at one time. This total does not include special skill tabs. Only one badge from groups 1, 2, 3, and 5, as listed in *a* above may be worn. Two badges from group 4 may be worn if no badge from group 5 is worn. Combat badges have precedence over special skill badges within the same group; for example, if authorized to wear both the Combat Infantry Badge and the Expert Infantry Badge, the Combat Infantry Badge will be worn. There is no precedence for special skill badges within groups; for example, personnel who are authorized to wear both parachutist and air assault badges may determine the order of wear. The above policies apply to the wear of both nonsubdued and subdued badges. The driver and mechanic badge will only be worn on the left pocket flap or similar location on uniforms without pockets on service and dress uniforms. No more than three clasps may be attached to the drivers and mechanic badge. The driver and mechanic badge is not authorized for wear on utility uniforms.

(1) Wear of nonsubdued full size and miniature combat and special skill badges with or without ribbons on male and female service and dress uniforms. Up to three combat and special skill badges from groups 1 to 3 may be worn one above the other, above the ribbons or pocket flap, or in a similar location for uniforms without pockets (figs 32-50 and 32-51). When no badges from groups 1 to 3 are worn, a total of two special skill badges from groups 4 and 5 (two group 4 or one group 4 and one group 5) may be worn one above the other, above the ribbons or pocket flap, or in a similar location on uniforms without pockets (figs 32-52 and 32-53). When badges from groups 1 to 3 are worn with badges from

groups 4 and 5, the badges from groups 4 and 5 will be worn side by side below the ribbons or on the pocket flap in order of group precedence from the wearer's right to left. See paragraph 32-16b for information on wearing skill badges on the pocket flap or below the ribbons. See paragraph 32-8b for information on wearing combat and special skill badges with full size medals.

(a) *Position of wear.* Combat or special skill badges worn above ribbons, the pocket flap, or in a similar location on uniforms without pockets, will be worn one above the other $\frac{1}{4}$ inch above ribbons, or the top of the pocket and spaced $\frac{1}{2}$ inch apart. In those instances where the number of ribbons or medals worn cause the badges to be obscured by the coat lapel, the badges may be worn aligned with the left edge of the ribbons or medals and subsequent badges centered on the top badge. Wear of special skill badges below the ribbons or on the pocket flap is prescribed in paragraph 32-16b.

(b) *Where worn.* Nonsubdued full size and miniature combat and special skill badges may be worn on the following uniforms:

1. *Male personnel.* On the coat of the Army green, blue, and white uniforms (fig 32-50).

2. *Female personnel.* On the coat or jacket of the Army green, green classic, green pantsuit, AG 388 uniforms, blue and white uniforms, and the AG 388 dress and maternity tunic (fig 32-51).

(2) Dress miniature badges.

(a) *On blue and white dress uniforms with miniature medals.* The dress miniature size combat and special skill badges may be worn on the male and female blue and white dress uniforms only when miniature medals are worn. Dress miniature badges and miniature medals will only be worn on the Army blue and white dress uniforms when these uniforms are worn as formal dress uniforms (bow tie). When miniature medals are worn on these uniforms, up to three dress miniature combat and special skill badges from groups 1 to 5 (see *a* above) may be worn one above the other, above the medals in order of group precedence. Special skill and marksmanship badges will not be worn on the pocket flap or below the medals on uniforms without pockets.

(b) *On male and female mess uniforms.* Dress miniature combat and special skill badges may be worn on all male and female mess and evening mess uniforms. These badges will be worn in a single row in order of precedence, without overlapping, immediately above any miniature medals or in a similar location when medals are not worn. These badges will not extend beyond the lapel of the male mess uniforms. See paragraph 32-9 for information on wear of miniature medals on male and female mess uniforms (figs 32-7 and 32-8).

(3) Subdued pin-on and embroidered sew-on combat and special skill badges. No more than four subdued combat and special skill badges will be worn. Badges will be worn one above the other centered on the

U.S. Army tape in order of group precedence (see *a* above). When four badges are worn, three will be worn centered above the U.S. Army tape in a vertical line, and one will be worn centered on the pocket flap or in a similar location on uniforms without pockets. When three badges are worn, two will be worn centered above the U.S. Army tape in a vertical line, and one will be worn centered on the pocket flap or in a similar location on uniforms without pockets. When two badges are worn, both badges will be worn centered above the U.S. Army tape in a vertical line. If only one badge is worn, it will be worn centered above the U.S. Army tape. The bottom of the badge will be worn approximately $\frac{1}{4}$ inch above the U.S. Army tape and $\frac{1}{2}$ inch space between badges if more than one badge is worn. See figure 32-54.

c. Wear of special skill tabs.

(1) *Ranger Tab.*

(a) *Description.* The full color tab is 2 $\frac{3}{8}$ inches long, 11/16 inch wide, with a $\frac{1}{8}$ -inch yellow border and the word "RANGER" inscribed in yellow letters 5/16 inch high. The subdued tab is identical except the background is olive drab and the word "RANGER" is in black letters (fig 32-55).

(b) *How worn.* The full color tab is worn $\frac{1}{2}$ inch below the shoulder seam on the left sleeve of the Army green coat. The subdued tab is worn $\frac{1}{2}$ inch below the shoulder seam on the left sleeve of the utility uniforms and field jackets. Only one special skill (Ranger or Special Forces) or marksmanship tab (President's Hundred) may be worn regardless of the number authorized (fig 32-56).

(c) *By whom worn.* All personnel authorized in accordance with criteria provided in AR 672-5-1.

(d) *Ranger Metal Tab Replica.* The Ranger Metal Tab Replica is available in two sizes. Soldiers authorized to wear the Ranger Tab may wear the Ranger Metal Tab Replica as prescribed below. Only one metal tab replica (Ranger or Special Forces) may be worn on the above uniforms. When worn on the pocket flap of the blue or white dress uniforms, the tab will be approximately $\frac{1}{2}$ inch below the seam. If no badge is worn from groups 1 to 3, the replica may be worn above the ribbons. Individuals awarded both the Ranger and Special Forces Tab may select which metal tab replica is worn (figs 32-57 and 32-58).

(b) *How worn.* The Special Forces Tab is worn the same as the Ranger Tab. See (1)(b) above.

(c) *By whom worn.* The tab is worn by all personnel authorized in accordance with AR 672-5-1.

(d) *Special Forces Metal Tab Replica.* The Special Forces Metal Tab Replica is available in two sizes. Service members authorized to wear the Special Forces Tab may wear the Special Forces Metal Tab Replica as prescribed below. The dress miniature version is approximately 1 inch wide and may be worn on the blue and white mess and evening mess uniforms and on the blue and white dress uniforms when miniature medals are worn. For purposes of classification and wear policy, Special Forces Metal Tab Replicas are classified as group 4 special skill badges (parachutist, pathfinder, glider, and air assault). Only one metal tab replica (Ranger or Special Forces) may be worn on the above uniforms. When worn on the pocket flap of the blue or white dress uniforms, the tabs will be approximately ½ inch below the seam. Chapter 33

Wear of the Army Uniform by Reserve, Retired, Separated, and Civilian Personnel

33-1. Occasions of ceremony

As used in this regulation, the phrase "occasions of ceremony" means occasions essentially of a military character at which the uniform is more appropriate than civilian clothing, e.g., military balls, military parades, military weddings, military funerals, memorial services, and meetings or functions of associations formed for military purposes. The membership is composed largely or entirely of honorably discharged veterans of the Armed Forces or of Reserve personnel. Authority to wear the uniform includes wearing the uniform while traveling to and from the ceremony, provided the travel in uniform can be completed on the day of the ceremony.

33-2. Wear of the uniform by members of the Army National Guard and U. S. Army Reserve
